

BCRA	ID	Woman's ID, positive integer 1, 2, 3,...		
	T1	Initial age, all real numbers T1		
	T2	BrCa projection age, all real numbers such that $T1 < T2$.		
	Race	Race, positive integer 1, 2, 3,...,11		
	N_Biop	The number of biopsies, 0, 1, 2,..., 99=missing (99 recoded to 0)		
	HypPlas	Did biopsy display atypical hyperplasia? 0=no, 1=yes, 99=missing or not applicable.		
	AgeMen	Age at menarchy, less than or equal to initial age, 99=missing.		
	Age1st	Age at first live birth, greater or equal to age at menarchy and less than or equal to initial age:99=missing		
	N_Rels	The number of 1st degree relatives with BrCa: 0, 1, 2,... 99=missing		
Facebook Data	from_id	id for user		
	from_name	name of user		
	message	message posted by facebook user		
	created_time	date, hours time message was posted on Facebook		
	status	type of post reaction: photo, link, status		
	likes count	number of likes for message		
	comments count	number of comments posted		
	shares count	number of shares for each post		
Race Prediction				
	surname	lastname		
	gender	female or male		
	pred.whi	probability of being white		
	pred.bla	probability of being black		
	pred.his	probability of being hispanic		
	pred.asi	probability of being asian		
	pred.oth	probability of being from another race		
Gender	firstname	needed to input name into Gender package		
	Year	The birth year of the name whose gender is to be predicted
